BIOGRAPHY

Dr. Lingfeng He earned his B.S. in Metallurgical Engineering from Central South University in 2003 and his Ph.D. in Materials Science from the Chinese Academy of Sciences in 2009. After completing his doctoral degree, he held postdoctoral positions at Nagaoka University of Technology, Japan, and the University of Wisconsin-Madison. In 2014, Dr. He joined Idaho National Laboratory (INL) as a staff scientist, where he worked his way up to become a distinguished staff scientist (Level V) and the High-Resolution Materials Characterization (HRMC) group lead in the Advanced Characterization Department.

In August 2022, Dr. He joined NC State as an Associate Professor of Nuclear Engineering. He specializes in studying materials behavior in extreme environments, focusing on the environmental degradation of materials in nuclear power systems. Dr. He investigates how processing and radiation/corrosion environments affect the microstructure, mechanical/thermal properties, and structural integrity/durability of materials and components.

Dr. He has served as the PI/Co-PI for 11 Laboratory Directed Research and Development (LDRD) projects, 2 Energy Frontier Research Centers (EFRCs), 1 Basic Energy Sciences (BES) Core Program, 1 International Nuclear Energy Research Initiative (I-NERI) project, 3 Nuclear Energy University Program (NEUP) projects (2 as the lead PI), 1 Small Business Innovation Research/Small Business Technology Transfer (SBIR/STTR) project, and 49 Nuclear Science User Facility (NSUF) Rapid Turnaround Experiments, in addition to supporting multiple DOE programs at INL. He is the top collaborator at NSUF.

Dr. He has mentored 5 postdoctoral researchers (now 2 tenure-track faculty and 3 staff scientists at INL), 7 graduate students (2 of whom have graduated and become staff scientists at INL), and 7 summer intern students from Michigan, MIT, RPI, Texas A&M, Virginia Tech, and Wisconsin at INL. He has published 141 peer-reviewed journal articles, 22 peer-reviewed conference proceedings, 1 book chapter, and held 5 patents. Dr. He has given over 35 invited/plenary talks at conferences/workshops/university seminars. He is an Associate Editor for Materials Science Section in *Heliyon* (a Cell Press / Elsevier journal). He is an ad hoc reviewer for 58 journals, including *Nature Communications*, *PNAS*, *Acta Materialia*, *Corrosion Science*, *Journal of Nuclear Materials*, and *Journal of the American Ceramic Society*. He is also an active reviewer for proposals from National Science Foundation, DOE Office of Energy Efficiency and Renewable Energy, AMMTO, Office of Nuclear Energy, NEUP, NSUF, DOE Office of Science, SBIR/STTR, and LDRD at INL.
